

Cloak

MATERIALS

- Large brown paper bag
- Yarn
- Scissors
- Pencil
- Hole punch
- Masking tape

Fasten with a yarn tie or a chain from some old jewelry.

Cloaks, or capes, were worn throughout most of Europe during the Middle Ages. Some were lined with fur for warmth.

Cut down one side of a large brown paper bag. Cut away the bottom of the bag. Open it flat and trim the corners to make a half-circle. Cut out a half-circle for the neck.

Put masking tape at the corners of the neck to keep the paper from tearing. Punch holes through it and tie with a length of yarn.

Make a half-circle shape.
